The GC-Board Alignment Gap

Research Report

Download your complimentary copy of BarkerGilmore's GC-Board Alignment Gap Report.

BarkerGilmore is pleased to share new research examining how General Counsel and boards align (and misalign) on the GC's role, enterprise value, and governance interaction, along with the practices that most effectively strengthen alignment.

Where do boards believe the GC delivers the most enterprise value today? Where do GCs believe they should be delivering value? And which interaction norms actually improve alignment in practice?

This practical report includes findings and insights on:

- Where boards vs. GCs believe the GC delivers the greatest enterprise value
- How GC time is currently allocated vs. where boards place the highest importance
- How frequently boards and GCs interact across key governance touchpoints

Download the report to get access to our GC-board alignment survey results.
